

We're hiring! The Tahirih Justice Center provides holistic immigration and social services to survivors of gender-based violence. We provide direct legal representation (affirmative and defensive asylum, U visas, T visas, VAWA, etc.) and engage in policy advocacy and community outreach and education on gender-based violence.

See below for two job postings. One is for a part time staff attorney and the other for a part time contract attorney. Please note that we have two job postings but are only hiring **one** person (either on staff or contract). Applications are submitted online, FYI.
